**3) CARETAKER REPORT – Don Kendall –**

The fish pond was cleaned and filter set up for the return of the turtles to their summer home. Thank you to all the volunteers who worked hard to get this done.

Fraser Health will be here on May 7 to inspect the pool and hot tub. If all goes well the pool is scheduled to be open Saturday May 9th

The green railings around the fish pond are being sanded and ready for painting. This work should be completed by mid-June.

Backflow Preventers will be serviced on May 11th. Notices will go out to all Townhouses who will need to be home to complete the service.

The pavers at the front gate will be repaired starting May 11. The work will be done on one side at a time. Notices will be posted to notify residents of gate closure.

**4) FINANCIAL REPORT – Bob Hyde and Paul Kavanagh – No Report –** March Financials not complete as we just had the AGM.

**5) COMMITTEE REPORTS**

**These reports are not necessarily submitted by the specific committee lead.**

**CONDOMINIUMS** – No Report

## **TOWNHOUSES – No Report**

## **CLUBHOUSE/POOL/GUEST SUITES/GYM/PONDS & FOUNTAINS – Marilyn Hunter**

The Fireside kitchen now has a new refrigerator. A repair technician was consulted; however, the cost to repair exceeded the cost of replacement. We are hopeful this new appliance will serve us well for many years to come.

Val Ferland will be overseeing weekend duties this summer, including opening the clubhouse, pool, conducting condo checks, and RV inspections. In addition, Val, Scott McFadyn, and myself have successfully completed the Pool Operator course and will act as backup support for Don Kendall and Val throughout the summer months.

The pool cover will be removed shortly, and water chemistry will be adjusted in preparation for inspection by the health authority. While an official opening date has not yet been confirmed, residents will be notified as soon as it is available.

**PONDS AND FOUNTAINS** The koi pond experienced a challenging start to the season with water chemistry; however, adjustments are underway and improvements are expected soon. Additional work has been completed on the pond filtration system, which should result in noticeably improved water clarity.

Our dedicated volunteer crew has been working hard to maintain this area as a beautiful and welcoming space for residents and visitors.

We are also looking forward to the addition of new plantings. Wendy McHale has been carefully selecting plants that will complement both the koi and the turtles while enhancing the overall appearance of the pond area.

Good news—all three turtles have safely returned and can often be seen enjoying the sunshine on the logs.

As the weather continues to warm, the maintenance team will be stripping and repainting the stanchions around the pond to refresh and update the area.

## **LANDSCAPING –**

Shawn provided Council with recommendations to take place over the year. Council will review with Shawn. Further, he will be asked about the repairs to areas that were dug up in front of a few townhouse units. Ron Bergman will do a walkthrough with Shawn to identify the priority of these recommendations.

## **SAFETY AND SECURITY – Ashley Orton**

As the resolution passed to purchase the new FOB system by Akuvox, Zenon & I are working on preparing the information required by them to set up the system. The Main pedestrian gate will remain unserviceable as the new system will replace it, and it would be an unnecessary expense to pay to fix it for a short while.

1. Better lighting in the garbage areas for the cameras. Ron will install. We need daylight LED lamps, 1-2 per location. It was **MOVED, SECONDED and CARRIED** to approve this minor expense.
2. Hard drive expansion for the 3 PVRs to extend recording capacity before overwriting takes place. \$500 +tax per drive times 3 (3 PVRs). It was **MOVED, SECONDED and CARRIED** to approve this expenditure.

## **IRRIGATION – Norm Reid**

This has been repeated from the last 2 sets of minutes: **We have not had any volunteers step forward.** Council is looking into Volunteers for the irrigation start up. Please connect with Ron Plankeel, Norm Reid or put a request into [jesse@crpm.ca](mailto:jesse@crpm.ca). Failure to get volunteers for this will result in the addition of a large expense to the operating budget which could be as much as \$40,000 annually.

We will investigate alternatives if volunteers are not available for this year.

## **SOCIAL COMMITTEE – Linda Hart**

In March, we celebrated Spring with a Japanese-themed Cherry Blossom dinner. Dozens of paper lanterns lined the hallway and the Japanese screens in the lobby added to the festive mood. We were pleased with the turnout of about 80 guests at our Annual Volunteer Appreciation Event. Guests enjoyed the door prizes and the inspirational pens.

The results of the Social Committee 2026/27 executive elections are as follows: Chair: Diane Moore, Vice-Chair: Hannelore Vanetta, Treasurer: Karen Hall, Secretary: Linda Hart  
We extend our sincere appreciation to Barb Gregg, Barb Parker, and Terry Hyde for their dedication and support over the years. Barb Parker will continue to serve on the committee as a member and past chairperson.

Hawaiian Dinner festivities began in the lobby, where guests were greeted with leis while a Ukulele band and hula dancer performed, setting the tone for the evening. Nearly everyone joined in the fun by donning Hawaiian shirts or dresses and there quite a number of "tacky tourists". The meal was a highlight, with delicious food that captured the flavours of Hawaii.

A reminder that bird feeders are not permitted and this includes feeders on condo decks and upper townhouse decks as well. Bird feeders are a huge attraction to mice and rats. # CHELSEA GARDENS EMERGENCY PREPAREDNESS

**APRIL 2026**

## **KEEP YOUR EMERGENCY INFORMATION UPDATED, LEAVE A KEY**

It's important that the office has up to date information regarding your emergency contacts and other information that could be critical in an emergency.

When residents move in, they are required to fill out a form that includes their contact information as well as emergency contact information. This form must be filled out in order to provide fob access to gates and buildings. The information gathered includes:

- Owner name and contact information (phone #s, email)
- Other occupants name and contact information
- Pet information
- Parking stall and storage locker numbers
- Vehicle information
- Emergency contact information (name, address, phone#s) – more than 1 is preferred
- Neighbour or contact who has a key
- For all occupants, any medical restrictions (e.g. wheelchair, hearing aids, dementia, etc)

**We also strongly recommend leaving a key with office for emergency access to your unit.** These keys are kept in a safe that can only be accessed by office staff and are not identified by unit#. The keys are coded and cross referenced with a code stored in the computer system. Thus, even if someone were able to break into the office and into the safe, they would not know the unit associated with a key.

It is important that the occupancy and emergency contact information is kept up to date. Unfortunately there have been incidents where residents are incapacitated and locked in their units, or a fire or flooding situation has occurred when residents are not home. If the information on file with the office is out of date and there is no way to reach emergency contacts or access the unit, response times will be delayed and emergency services may have to break down the door. These delays are critical and could even result in loss of life.

You can update your information by contacting the office staff who are able to update it online. As part of the roll-out of the new security system, we will have volunteers available to update emergency information.

### **DID YOU KNOW?**

The Emergency Preparedness Guide has been updated and is available via the Chelsea Today website or this [link](#) (you may be required to sign in to Chelsea Today). The guide contains information about the Emergency Preparedness Program at Chelsea Gardens and valuable tips on how to prepare and what to do in an emergency such as an earthquake, fire, gas leak or power outage.

**Our community is always changing: residents move out and others move in, some decline in capability with time, and others have changes in personal priorities. Thus, volunteers leave the program. We will always need more volunteers to ensure our emergency response is effective. If you are interested in contributing to your community in a very positive way, contact the Emergency Program Leader, Doug McLeod, at [kdmcleod@telus.net](mailto:kdmcleod@telus.net), or 778.591.3999.**
