

Fire Alarm Test

Please be advised fire alarm testing at
Chelsea Gardens - Kensington
13860 70 Ave

Will be on **July 8th**
from **approx. 8:00am – 4:00pm**

Units access will be required on **July 8th** from:
8:30am – 12:30pm
(Working from the highest floor to the lowest floor)

Please note that our techs will not be able to accommodate special requests such as performing insuite inspections outside of the scheduled times.

The testing will include access to your suite to test or replace the fire alarm devices (e.g. Smoke alarm & heat detector). **If you are unable to be home, please leave a key with a neighbour or council member and leave a note with the technician or at the fire alarm panel.

Device testing is mandatory pursuant to Canada's Fire Code.

Radius Fire Protection will be conducting a test of the fire protection equipment in the building. It may be necessary to ring the fire bells periodically throughout our visit.

This test is to ensure all occupants are protected and can safely exit the building should an emergency situation arise. We thank you in advance for your cooperation, and apologize for any inconvenience.

Protecting you is central to everything we do.
